Method & Production

Fico Wines is a project dedicated to Filippo Corsini. Taken from a section of the Gugliaie vineyard with less stones, but using the same biodynamic approach, Fico's team produce a wine that truly embodies Filippo's vision for viticulture.

100% Sangiovese. The grapes spontaneously ferment in tonneaux. The winemaking process is the same as in Fico, with the same attention to detail. The limited annual production is about two thousand bottles, also to guarantee the extreme care of the product.
