

COUR-CHEVERNY

Loire Valley, France
Domaine Daridan

www.domainedaridan.com

Method & Production

Made from 100% Romorantin grapes, estate grown, manual harvest, from their vineyard in Cour-Cheverny. The grapes are pressed. The juices are then settled cold and placed in a thermo-regulated stainless steel vat. Alcoholic fermentation begins naturally by indigenous yeasts at 14°C over 20 days. Malolactic fermentation occurs naturally, depending on the vintage partially or entirely. 10 months ageing on the fine lees in stainless steel vats. Filtration only, no fining.

Tasting Notes

The nose is delicate and refined, offering aromas of white flowers, acacia, and a hint of honey. On the palate, it is elegant and poised, with charm, finesse, and a finely balanced profile.

Food Matching

Aperitif, green asparagus, scallops, fish, chicken, tuna tartar, foie gras, lobster, cheeses.
