

RECIOTO DI SOAVE

Veneto, Italy

Monte Tondo

www.montetondo.it

Method & Production

Hand-harvested, estate-grown Garganega is carefully selected from the ripest fruit with the highest natural sugar levels. After harvest, the grapes are left to semi-dry in well-ventilated “fruttai” rooms. In late January, the dried fruit is transferred to stainless steel tanks to ferment with indigenous yeasts at a controlled temperature of 18–20°C, following a 24-hour maceration. The wine is then aged for 18 months in 500L tonneaux, including six months on the lees, before being bottled and allowed to rest for a further six months.

Tasting Notes

Straw-yellow in colour with bright, golden highlights. The nose is lifted and floral, offering delicate aromatic intensity. On the palate it is full-bodied, sweet yet beautifully balanced, with a harmonious, long, and elegant finish.

Food Matching

Ideal with almond cookies or pastafrolla and sbrisolona cake.
