

BAROLO RISERVA BUSSIA VIGNA MONDOCA

Piemonte, Italy

Oddero

www.oddero.it/index.php/en/

Method & Production

The Nebbiolo grapes are harvested in the first part of October from single vineyard Vigna Mondoca, the oldest part of Bussia. Manual selection of the grapes. Gentle de-stemming and pressing. Spontaneous fermentation and maceration for approximately 30 days, at a constant temperature of 28-29°C. Malolactic fermentation follows in December. The wine is aged in 30HL oak barrels for approximately 36 months. Only in the best vintages, such as this one, the Bussia Vigna Mondoca wines become Riserva, aging in their cellars in bottle for 5 years.

Tasting Notes

Mellow and elegant bouquet with scents of berries and natural balsamic notes, Mediterranean woodlands, and dried rose petal. Well-balanced, with elegant and assertive tannic texture. A long and complex finish.

“Vigna Mondoca is a warm cru with southern exposure within the broad Bussia MGA. A warm vintage combined with a warm cru over warm soil with almost no clay and primarily chalk, yet in the highest part of the Bussia. Restrained, the nose is full of plum and dark fruits, wild officinal herbs, liquorice and blood, developing on the palate with earthy tones, lively acidity and velvety, slightly oaky tannins. Concentrated and powerful, it’s nevertheless graceful.” **96 points, Aldo Fiorelli, Decanter (April 2021)**
