

FURMINT F

Somlo, Hungary
Tornai Pincészet

www.tornaipince.hu

Method & Production

The Tornai "F" was created to offer drinkers a modern fruit-driven example of Furmint. Early harvesting ensures good acidity and helps to retain fruit freshness, creating a vibrant light wine. The grapes are left on the skins for a short period before a gentle pressing and then fermentation occurs in stainless steel tank.

Tasting Notes

A very modern style of furmint. On the nose you get fresh pear and peach with minerality. It is very rich on the palate, full of tropical fruit, floral, a touch of minerality and great acidity.

Food Matching

Great as an aperitif, also works well with salads and light starters. Makes a good match for asian inspired dishes.
