### Method & Production

The Gattinara Riserva is made only in the best vintages. A careful selection of grapes is harvested in the beginning of October. The grapes are crushed and then left to macerate on the skins for around 15 days before fermentation in stainless steel at a controlled temperature. The wine is aged on Slovenian oak for two years and then spends a year in bottle pre release.

### Food Matching

You can serve this wine with all courses, with strong first courses, red meat, game and seasoned cheese as well.
