Method & Production

We handled the grapes, must, juice and wine using protective technology - minimum air contact and quick, gentle handling. Fermentation took place over three weeks in stainless steel tanks at under 15°C. After fermentation the wines remained on yeast lees for a few weeks to build mouth feel. No fining, gentle filtration and early bottling.

Tasting Notes

Vibrant fruit with the classic gooseberry, passionfruit and nettles aromas; good depth of flavour and length. Crisp and elegant on the palate.

Food Matching

Chicken, seafood, spring vegetables, and herb-based sauces.
